All provisions of laws and ordinances governing this type of work will be complied with whether specified herein or not. Said plans and calculations shall be subject to the review and approval of the Department of Environmental Resources Management. The permit applicant will secure the services of an engineer registered in the State of Florida to conduct inspections throughout the construction period, and said engineer shall prepare all required drawings of record.</p> <p>If road closure, an approved M.O.T. must be submitted along with permit application.</p> <p>All construction activities are to use best management procedures to prevent sediments from entering adjacent property, stormwater inlets, water bodies, or other areas which may eventually cause them to be washed into adjacent surface water bodies.</p>
