COVID-19 Risk Assessment and Public Health Management Decision Making

**Identify Strategies to Reduce Risk**
- Identify staff/personnel
- Train and educate
- Adhere to standard infection control precautions
- Implement environmental infection control precautions
- Post signage on facility entry points

**Adult Living Facilities**
- Monitor and screen for signs and symptoms of COVID-19

**Suspected case(s) of COVID-19**
- Contact local health department (305) 470-5660
- Follow CDC’s Infection Prevention & Control Practices
- Implement CDC’s 14-day quarantine precaution for the facility Staff – Home Quarantine

**Increase in presumptive or confirmed cases**
- Expand 14-day quarantine precaution – Restrict Access to visitors; limit access vendors/contractors

**Test (+)**
- Reevaluate by local health department
- Quarantine

**Test (-)**
- Reevaluate by local health department
- DOH will determine need for further quarantine

**Clean and sterilize facility**
- Reinstall Normal Access

**Coordinate with vendors and contractors**
- Delivery Services
  - Food
  - Healthcare
  - Janitorial
- Contracts
  - County Contracts
  - ESF 11
  - ESF 15
  - CERT
- Visiting Nurse Services

**Monitor**
